

Technical Data Sheet

PREMIER WEB FOUNTAIN SOLUTION

PREMIER WEB is high quality coldset fountain solution. It works in all water conditions; in all humidification systems except TURBO system. It has advanced anti-corrosion inhibitors together with effective biocides and performance additives.

Application advice for best performance;

- Dosage : 2-3%.
- Due to its buffering properties, it provides a balanced, constant maintains the Ph value.
- Correct dosing is done by monitoring the conductivity.

Key Features ;

- High buffer performance for stable pH in the optimal range for printing.
- Faster, cleaner start-ups.
- Anti-corrosive.
- Maintains a constant ink/water balance.
- Effective on a wide range of inks and papers.
- High performance in almost all water conditions.
- Optimum plate protection without stickiness.
- Excellent wetting, lower water and ink values for high print quality
- Fast ink drying.
- Reduced picking, piling and linting.
- Effective at low dosage.
- Prevention of contamination and bacterial growth.
- Reduced foaming.
- Formaldehyde free.
